Transport and dockworkers unions warns of strike

The Swedish dockworkers union and Transport union (the "Unions") has notified warns of strike, blockade and other industrial actions starting on the 21th of May 2025 in accordance with the Swedish constitution.

Should the Unions enforce any or all of the notified industrial actions there is an imminent risk that these actions will obstruct or prevent SCA Logistics to perform its contractual obligations. Unfortunately, this can affect you as a client.

We would also like to inform you that the industrial actions could be considered a Force Majeure as the Industrial actions are beyond the reasonable control of SCA Logistics.

SCA Logistics will continuously investigate and closely monitor the situation and use all reasonable commercial efforts to remove or overcome the hindrance of performance.

Please do not hesitate to contact us if you have any questions. For further information, please visit the SCA Logistics website.

SCA Logistics AB

Jonas Nilsson
Marknads &
Försäljningschef

Kärnan i SCAs verksamhet är den växande skogen, Europas största privata skogsinnehav. Kring denna unika resurs har vi byggt en välutvecklad värdekedja baserad på förnybar råvara från våra egna och andras skogar. Vi erbjuder förpackningspapper, massa, trävaror, förnybar energi, tjänster för skogsägare och effektiva transportlösningar.
